

Letter received from Sarah Davies – Parent – Forest School Film

I have been asked to give feedback about the forest school video.

I came across it on facebook as a friend had shared it with me. I had no idea it had been made, the first time I watched it, it brought a tear to my eye, it is a beautiful piece of film showing how amazing & creative the school children are including my own- when they are up in the forest.

It gave me a lovely insight into what they get up to, how their imaginations thrive & how their physical skills really do develop & their confidence in skills such as climbing trees & assessing danger & what they can do. The film brought a smile to my face that I shared it with my sister in australia who we don't see

very often.

I know facebook can be frowned on but done ^{the} right way it can share truly beautiful moments with parents & carers of our children and can help encourage parents to give valuable feedback to the school.

Thank you for sharing this video, it is one I'm so pleased to have been able to watch. I know Ella was very proud when showing it to her dad & thoughtfully enjoyed telling him what her & her friends get up to in the forest.
