

Pupil Premium Grant Spend Lydbury Period 2015-2016	Number of pupils on role: 29 No. pupils eligible for Pupil premium grant: 9 Value per pupil: £1300 Total amt. of pupil premium grant received £14000		
Item / Project	Cost	Purpose	Impact of Pupil Premium Funding
Impact on Social and Emotional Development			
Free extended school places at breakfast and after school club	£939	To encourage pupils to participate in extra curricular club. To give particular support to families without childcare locally – no public transport and to single parent families In particular To give opportunities for children to socialise and support their emotional well being	Good uptake by families receiving pupil premium funding; with many families attending breakfast and after school clubs on a regular basis. This provision has enabled parents to return to work and impact on economic wellbeing. Provide quality childcare for sparse rural population in the village where none was available previously Children having fun when attending after school clubs – feedback very positive with great social interactions between children and breakfast/ after school staff Feedback from parents using the extended provision – “ very positive welcoming family atmosphere”
Free school trips and workshops	£ 1223	To enable all pupils to participate in school trips and visits.	100% participation in educational trips. Enabled full inclusion and no economic barriers to attending visits that enrich and enhance children’s educational experiences. Feedback from parents and carers of positive impact of range of visits that the children were able to experience.
Additional Funding for Intervention to close gaps in attainment			
Range of intervention	£13392	To close gaps in attainment	These interventions vary as to

programmes targeted at the needs of each child/ group of children		and accelerate progress	need and a detailed summary of this work and its impacts is documented for each child receiving pupil premium funding.
